March 13, 2020

Starting this Monday March 16 2020, the Hanover Area School District will be part of a 14-day preventative shutdown. The expected return day will be Monday, March 30, 2020.

This is part of a proactive regional effort to combat the spread of any communicable threat in our area. These steps are being taken in coordination with recommendations provided by Pennsylvania Governor Tom Wolf and guidance provided by the CDC.

While there are not currently work requirements for Hanover Area students, this is a fluid situation that may change rapidly. Please be vigilant in checking our district website, district social media outlets and our Remind texting app for updates that will be posted.
